

## Apply for Graduation

After signing into the Enroll & Pay system, select the Degree Progress & Graduation tile on the Student Homepage.

On the KU Apply for Graduation page, click on the hyperlink next to Academic Program. IF there are multiple academic programs listed for the student, the student must go through the application process for graduation separately for each of the academic programs.

When there are multiple majors, the student may choose to apply to one major, but drop or defer another major. If the major is dropped, it is removed from the application for degree and the student's record. If the major is deferred, and the student re-enrolls for a future semester, the deferred major will be placed back on the student's record.

Select **Apply** for majors that the student wants to graduate from. Select a graduation term from the drop down list and click on the **Continue** button.

You will be directed to this page, where you will verify the graduating term and academic program. If there is a need to change either one of these, select the appropriate buttons (Select Different Program or Select Different Term) and follow the directions on the page to continue for applying for graduation once again. If all the information on the current page is correct, then click Continue.

The next page provides the student an opportunity to change their email address, mailing address and name that will be placed on the diploma. An email address must be provided (if one is not there) for future communication. This email address will be used to communicate the student after graduation and does not impact the current student email address.
